Monday 8 th	11	1 unknown community source 10 contacts
Tuesday 9 th	8	3* unknown community source 5 contacts

*Contact tracing still underway

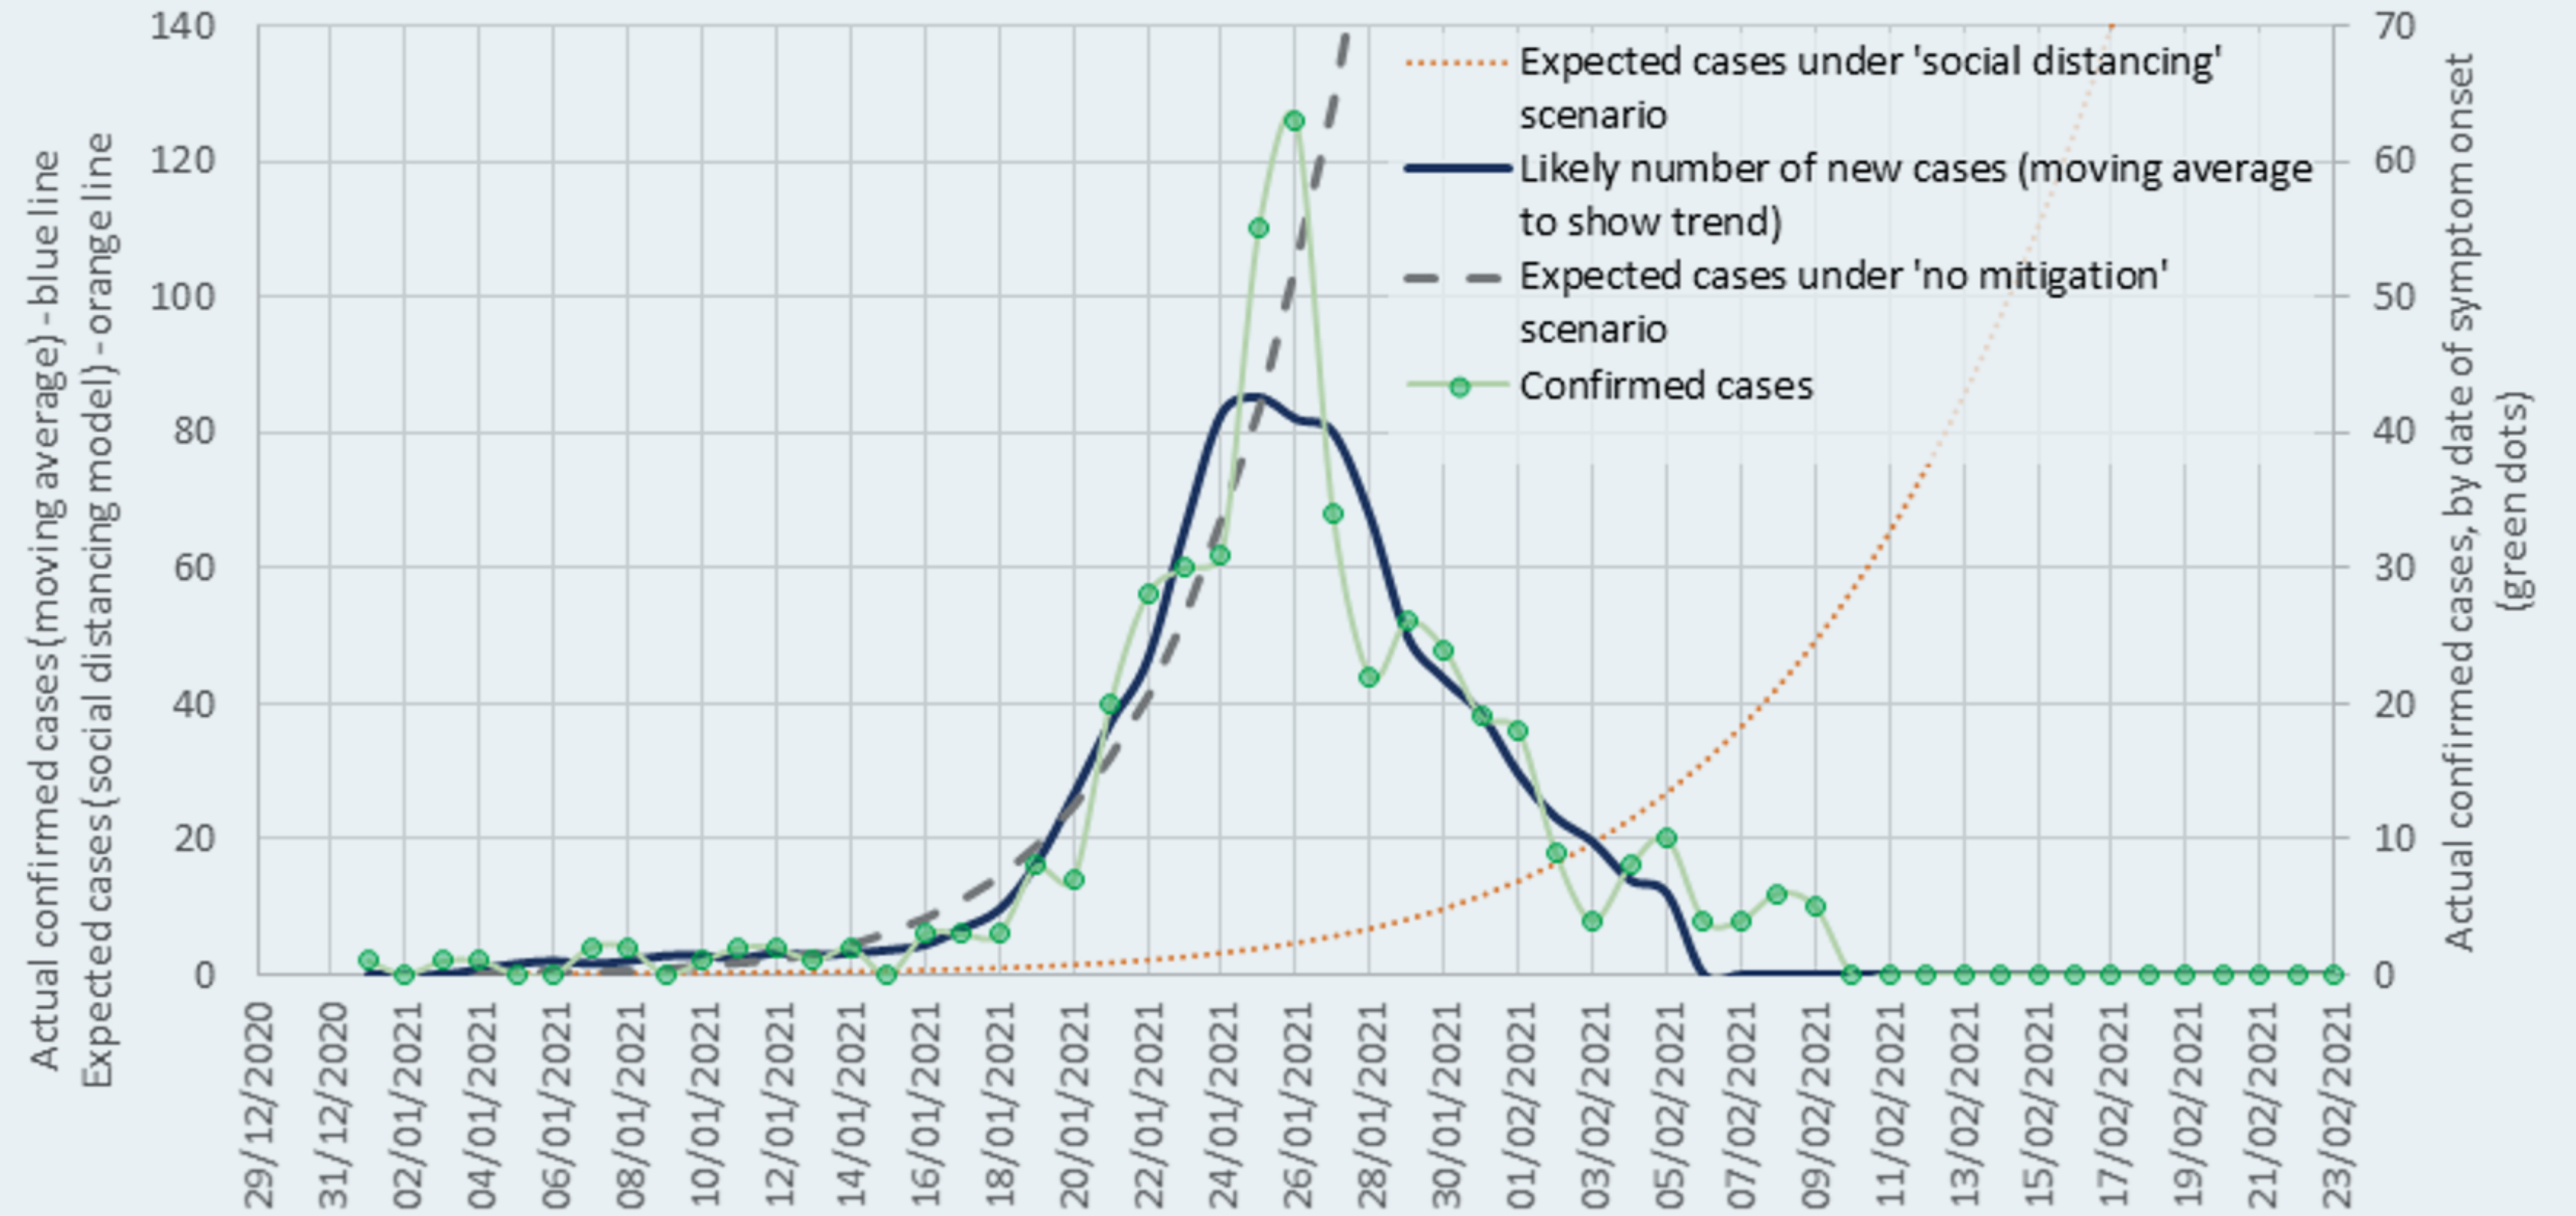

COVID-19

Active case by case type

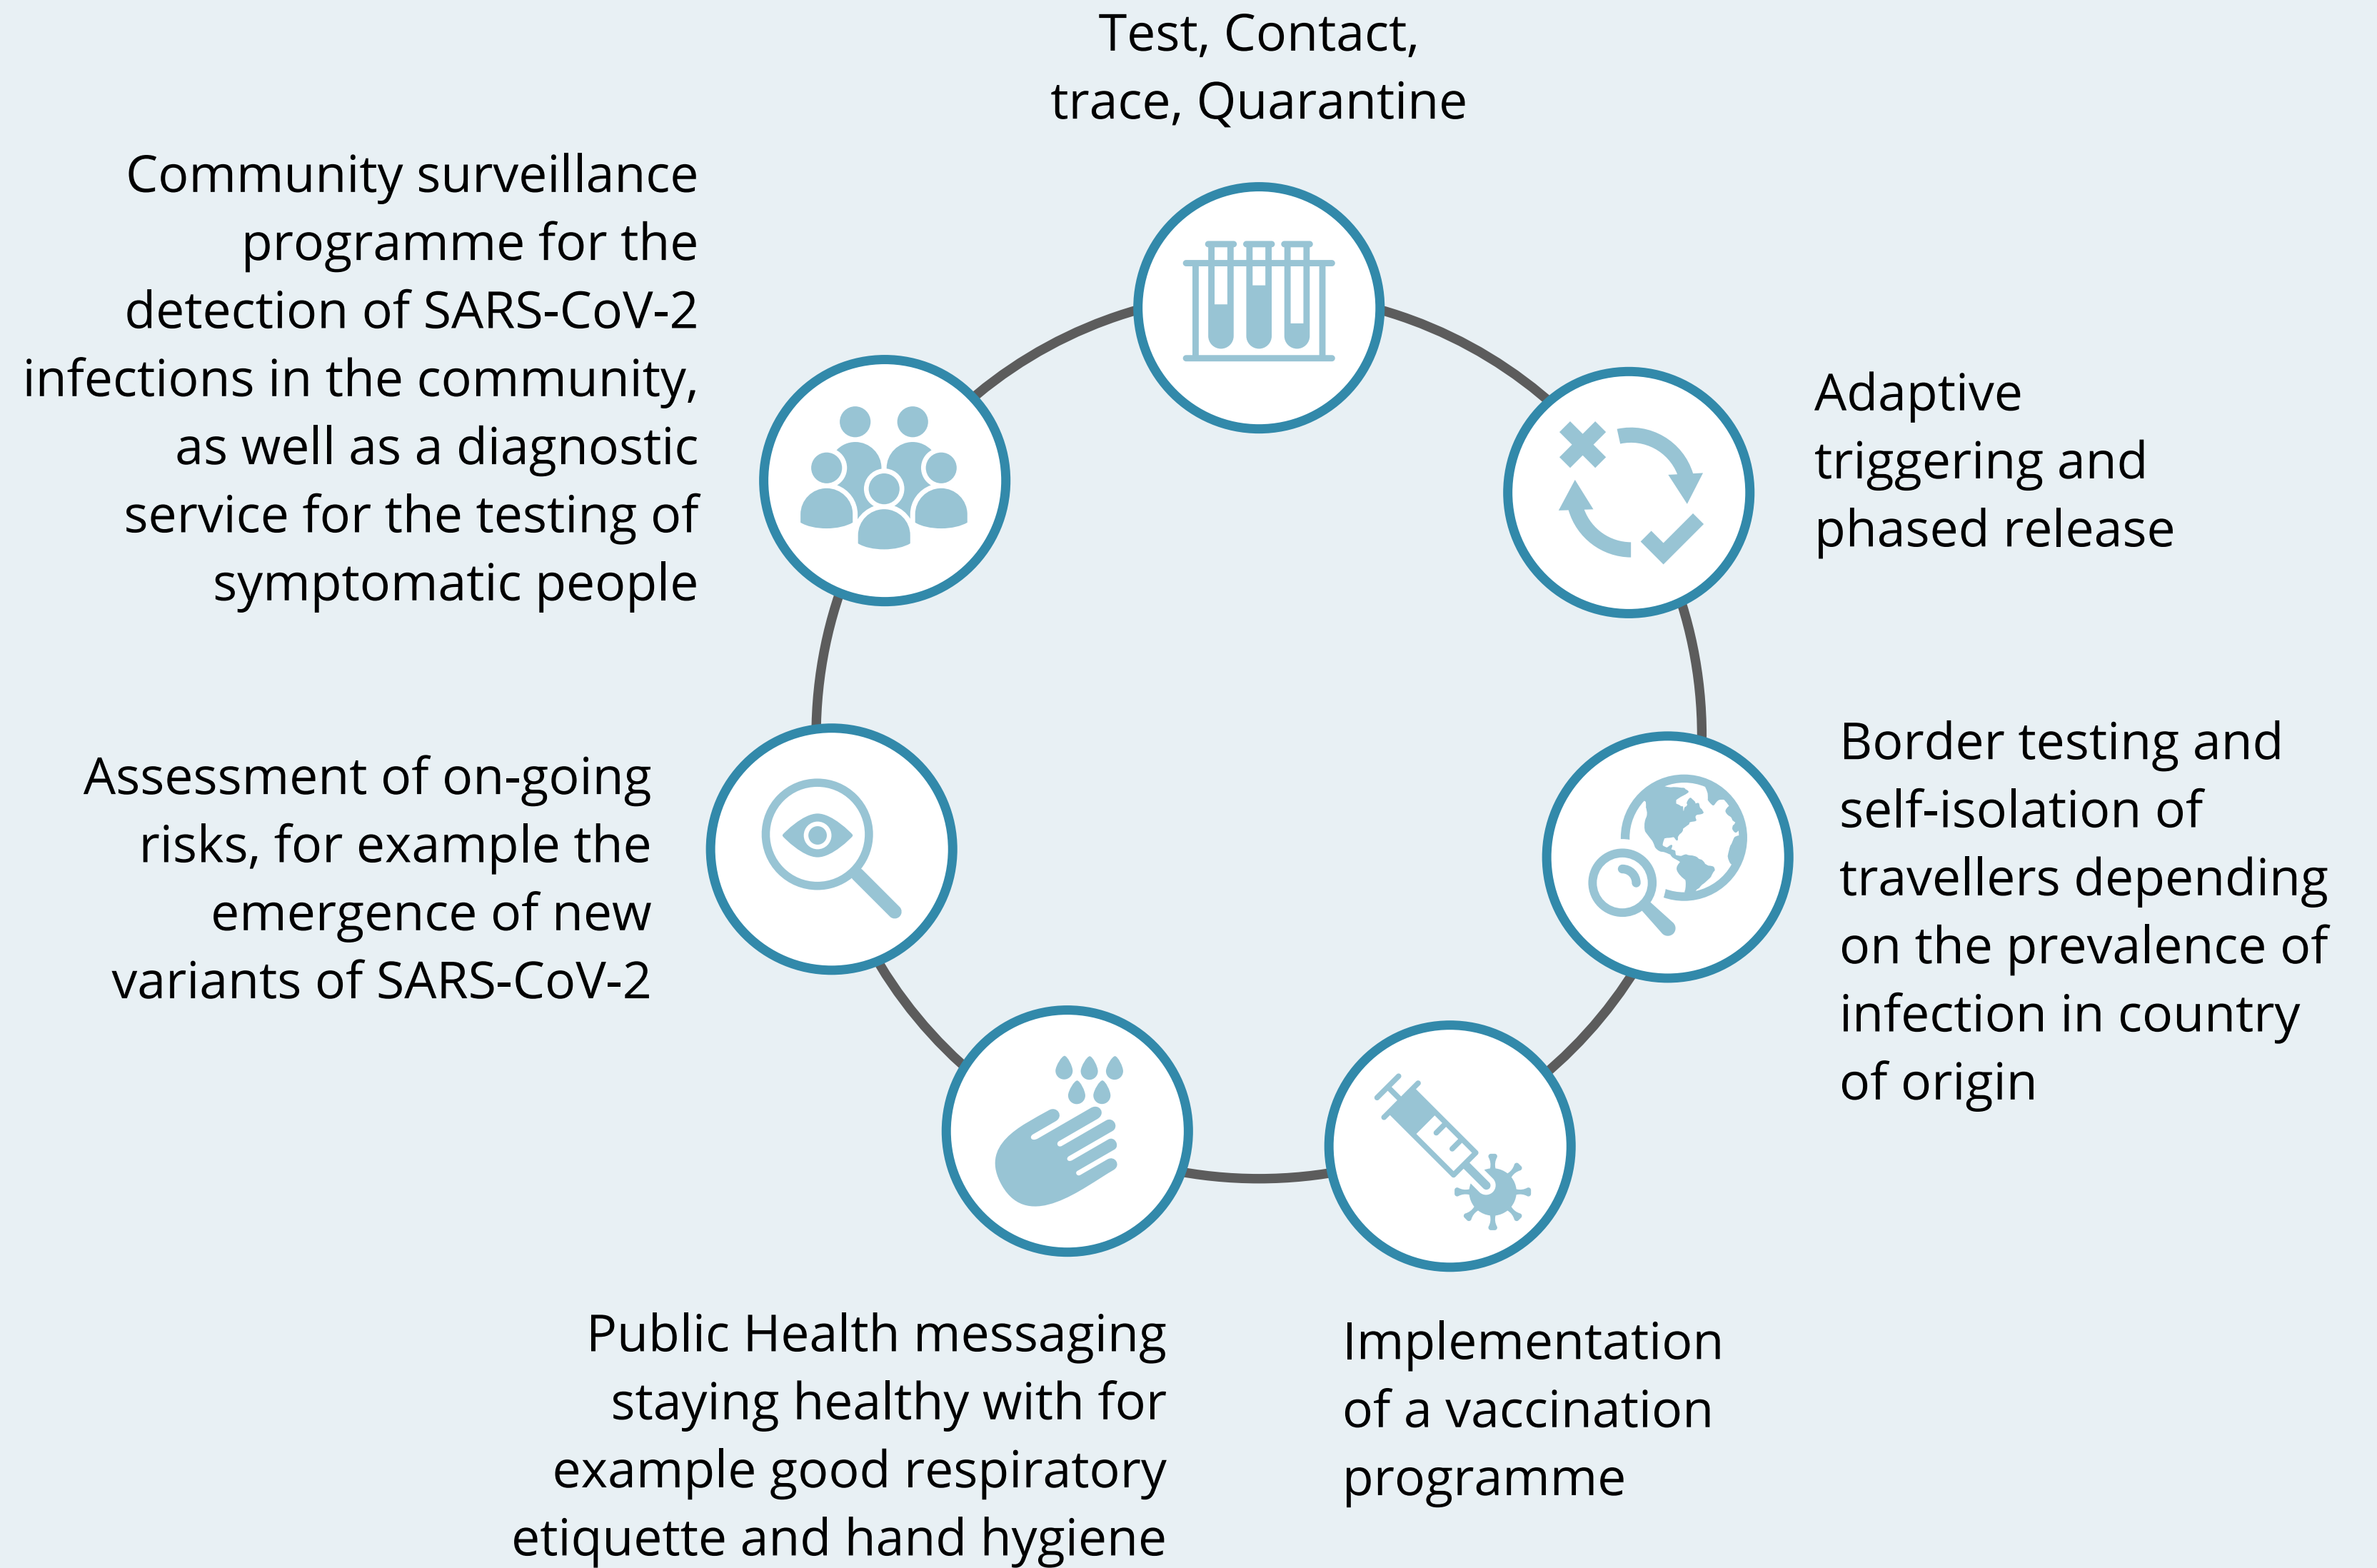

COVID-19

Modelling of progression: Wave 2

COVID-19

Approach to Exit from Lockdown

COVID-19 Approach to Exit from Lockdown

High risk of uncontained community transmission

Lockdown

Contact tracing in place, border restrictions, lockdown mitigations

Medium risk of uncontained community transmission

Aligned with Phase 2 of 'Exit from Lockdown Framework'

With mitigations and restrictions

Low risk of uncontained community transmission

Aligned with Phase 4 of 'Exit from Lockdown Framework'

With mitigations and restrictions

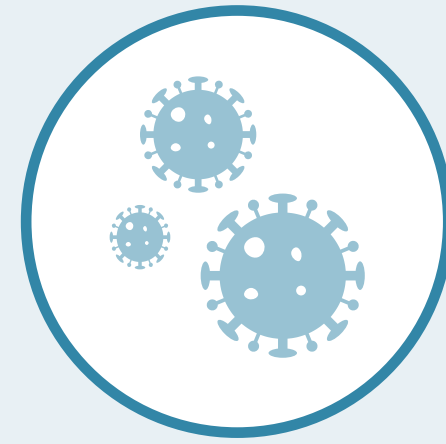

Outbreak officially eliminated

Aligned with Phase 5 of 'Exit from Lockdown Framework'

Full return to conditions prior to the 22nd January 2021 with border controls and enhanced surveillance to detect pockets of infection in place

Continuing risk of importation via border. Potential to pause and reset if circumstances are not favourable.

COVID-19 Release Triggers between stages

No new clusters of infections or individual cases of infection that cannot be controlled by 'Test, Track and Isolate'

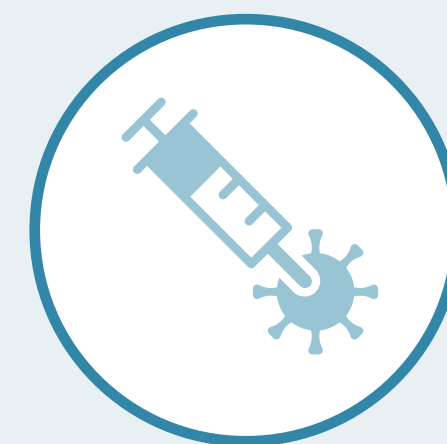

Adequate hospital and primary care capacity

Continued local testing

Surveillance programme

Continued roll-out of vaccine

Public adherence

COVID-19

Full Lockdown

Full Lockdown

High Risk of uncontained community Transmission

Entered 23rd
January with
refinement 11th
February 2021

Support Bubbles

Lone Working

Education

- 
 Where there is only one adult (this includes households with one adult living alone or one adult and any children under the age of 18);
- 
 Where there is only one adult carer (this means households where this is one adult carer and anyone else living within the household has a disability and requires continuous care);
- 
 Where there is a child under one, regardless of how many other adults are in the household;
- 
 Where there is a child under 5 with a disability that requires continuous care (regardless of how many other adults are in the household); or
- 
 Where an individual needs to move to another household to support their physical and mental wellbeing.
