

COVID-19 Guidance on Accompanied Pet Travel via Commercial Transport Methods (Aircraft & Condor Ferries)

DO NOT travel if you have symptoms of COVID-19.

Always check the most up to date COVID-19 guidelines [here](#).

How can I transport my pet to Guernsey?

Pets can be transported through the use of private licensed chartered flights and via commercial transport methods ([Aurigny](#), Channel Jets and [Condor Ferries](#)). For information on your booking, please contact your service provider directly.

The following information is for the accompanied importation of pet dogs, cats and ferrets (which we shall refer to collectively as 'pets') on **commercial transport methods** (Aurigny, Channel Jets or Condor Ferries) from the **United Kingdom (UK), France (via boat) and Crown Dependencies (CD's)**.

We advise that you also read the [non-COVID related pet travel information](#) and contact the service provider directly if you have any queries.

Welfare in transport

- Travel time must be kept to a minimum to protect the welfare of animals being transported – if there is poor weather, it is advised that travel is postponed.
- Transporters should ensure that the pet is provided with comfortable and appropriate accommodation such as crates/pet carriers, including bedding, during transport – see [Travellers Pet Corner](#).

What do I need to do before my pet travels?

- Make a Pet Care Plan in the event that you cannot care for your pet for a period of time. You should have:
 - A plan for who might be able to care for your pet in the event of emergency;
 - Written details as to the care, feeding and medical history of your pet;
 - Your vet's contact details.
- Ensure that you have at least 2 weeks supply of pet food, treats, litter, poo bags, bedding etc.
- Pets coming from France will need to have the necessary documentation completed and this must accompany pets during transportation for checking in St Malo.

What happens upon arrival in Guernsey?

- On arrival into Guernsey you **must** adhere to the instructions for getting from the airport/harbour to the address where you will self-isolate. Further information can be found [here](#). Do not stop off anywhere between the airport/harbour and your self-isolation address!
- Further information on self-isolation can be found [here](#).

What do I do once my pet is at home?

- Follow the [Pets and livestock guidance](#) for further information.
 - Please note: You **CANNOT** walk your dog whilst self-isolating, nor can family/friends/professional dog walkers. Cats should be kept indoors for the period of self-isolation.
- It is advised that you bath your pet to reduce the likelihood that the virus is on its fur. Please see the [COVID-19 Guidance on Bathing Pets & Livestock](#).
- **Contact with your pet must be kept to a minimum if you are showing any clinical signs of COVID-19 or have had a positive result.**
