Parking at the Community Vaccination Centre

Whilst we are enjoying our Bailiwick Bubble and on-Island activities are getting back to normal, we are seeing a high demand for parking at Beau Sejour whilst the Community Vaccination Centre (CVC) is in operation.

There is dedicated parking for callers attending the CVC – including accessible spaces.

During the weeks ahead we have very busy clinics with older age groups attending for their second dose of the vaccine, along with younger age groups receiving their first dose.

The car park will be monitored during the day by CVC staff. People attending Beau Sejour for activities or sporting events are asked to only park in the dedicated CVC spaces **if they are able to vacate them by 9.45am**. If parking is difficult, overspill spaces should be available at Amherst School during the school holidays; after 5.30pm term-time weekdays and at weekends.

If you are visiting Beau Sejour over the next week, please allow yourself enough time to find a parking space and use active travel methods and car shares whenever you can. Please don't park in the dedicated CVC spaces after 9.45am unless you are attending a CVC appointment, and be kind to the car parking attendants – who will try their best to help you wherever and whenever they can.
