 Group 4b Clinically Extremely Vulnerable	Vaccines delivered by Primary Care	Complete All in this group who have taken up the invite for a vaccine have received 2 doses of the vaccine

Group 5

All those ages 65 years of age and over

Vaccine delivered in the Community Vaccination Centre

Complete

All in this group who have taken up the invite for a vaccine have received 2 doses of the vaccine

Group 6

Individuals aged 18 to 65 years of age at **moderate risk**

Vaccine delivered in the Community Vaccination Centre

Complete

All in this group who have taken up the invite for a vaccine have received 2 doses of the vaccine

Group 7

All those ages 60 years of age and over

Vaccine delivered in the Community Vaccination Centre

Complete

All in this group who have taken up the invite for a vaccine have received 2 doses of the vaccine

Group 8

All those ages 55 years of age and over

Vaccine delivered in the Community Vaccination Centre

Complete

All in this group who have taken up their initial invite for vaccination have received 2 doses of the vaccine

Group 9

All those ages 50 years of age and over

Vaccine delivered in the Community Vaccination Centre

Complete

All in this group who have taken up their initial invite for vaccination have received 2 doses of the vaccine

Priority groups 6 to 9 are identified by a PHE algorithm in the UK which searches the database and looks for certain coding or 'flags' that identify patients at moderate risk. This might mean that others might be called forward during this time.

2

Phase 2 – vaccines for those aged 18 years and over

Everyone in this group who has taken up their initial invitation will have received their first dose and should have received their second dose of the vaccine by 31st July 2021.

i

If you are aged 18 years and over and ARE NOT registered with a primary care practice (doctors' surgery) please fill out the form at gov.gg/covid19vaccinationform

3

Phase 3 – vaccines for children and young people

We are currently planning how to vaccinate this cohort. We do not yet know how and when this cohort will receive the vaccine. This depends on the outcome of vaccine trials currently underway and approval by the various regulators. However, early stage planning is taking place to ensure we are ready as soon as the vaccine is approved for children and young people.

If you or your children ARE NOT registered with a primary care practice (doctor's surgery) please do so. If you are not registered we will not know about you when we come to vaccinate this group.

All but a few adults in all cohorts who took up invitation later for varying reasons and have received their first dose, should have received their second dose by 31st August 2021. Those few who did not come forward for vaccination until July will receive their second doses in August and September in reduced frequency clinics.

Alderney, Sark, Herm, non-residents and seasonal workers

All adults who have chosen to be vaccinated have received their first dose and most will have received their second dose by 31st July.

If you think you should have been contacted, and have not been, please call **01481 220006**
