

Media Release

Date: 2 December 2021

Call out for more COVID-19 vaccinators

Are you a registered health professional? The Community Vaccination Centre (CVC) needs your help.

Following the recent announcement of the JCVI to accelerate the COVID-19 booster programme, we need additional vaccinators to help deliver the booster programme for the next 4 to 6 weeks.

We need to boost as many people as possible as quickly as we can.

If you are interested in helping your community meet the Bailiwick goal of administering over 30,000 doses of COVID-19 vaccine between now and the end of January, you need to have a valid professional registration as follows:

- doctors registered with the General Medical Council (GMC)
- nurses and midwives currently registered with the Nursing and Midwifery Council (NMC)
- dentists - registered under the Doctors, Dentists and Pharmacists Ordinance, 1987.
- pharmacists currently registered with the General Pharmaceutical Council (GPhC)
- anaesthetic assistants, chiropodists, dieticians, occupational therapists, operating department practitioners, orthoptists, orthotists/prosthetists, paramedics, physiotherapists, radiographers and speech and language therapists currently registered with the Health and Care Professions Council (HCPC)
- optometrists registered with the General Optical Council

If you have the necessary professional registration and you are interested in supporting the Bailiwick COVID-19 vaccination programme, please contact CovidVaccine@gov.gg to discuss and learn more detail about the opportunity.
