Easter travellers advised to check COVID travel requirements

Ahead of the Easter holidays, Islanders are being reminded to check the requirements of any jurisdictions they are visiting.

While the Bailiwick no longer has specific COVID-related travel requirements in place, many other places do and in some cases they can still change at relatively short notice.

If you need to demonstrate your vaccination status when travelling, your digital certificate including a 2d barcode is still available online through your Travel Tracker account. This can be downloaded and printed off. It will contain your latest vaccination information. More information can be found at <https://covid19.gov.gg/guidance/vaccine/passports>.

Importantly, travellers should note that some jurisdictions may ask for proof of a booster vaccine. If you have not yet had your booster, and you intend to have it before travelling, **please note confirmation of your booster will not appear in your digital vaccination certificate until 14 days after you receive your booster. Separate paper certificates will not be issued for your booster.**
