

Media Release

Date: 27 May 2022

COVID-19 vaccination programme to change to 'pop up' clinics only between now and an autumn booster programme

Tomorrow (28 May) will be the last Vaccination Clinic to be held at the Community Vaccination Centre (CVC) at Beau Sejour.

Nearly 80% of those eligible for a Spring Booster have now received their 4th dose of vaccine and the numbers attending each clinic mean there is no longer a need for the CVC to be based in Beau Sejour. This means that the leisure centre can now be handed back to the community for other purposes.

From Monday 30 May, the core vaccination team will relocate to offices on the PEH campus and will operate 'pop up' clinics going forward.

Islanders who have been offered a spring booster, or who have not received a full course of vaccine and now wish to do so, can still access a vaccine at one of the 'pop up' clinics which will be run each month from June onwards until the commencement of an autumn booster programme.

The clinics scheduled for June are as follows:

Tuesday 31 May	13.00 to 18.00	Guille Alles Library
Saturday 4 June	09.30 to 14.30	Lukis House
Tuesday 7 June	13.00 to 18.00	Guille Alles Library
Saturday 11 June	09.30 to 14.30	Lukis House
Tuesday 14 June	13.00 to 18.00	Guille Alles Library
Saturday 18 June	09.30 to 14.30	Lukis House
Tuesday 21 June	13.00 to 18.00	Guille Alles Library
Saturday 25 June	09.30 to 14.30	Lukis House
Tuesday 28 June	13.00 to 18.00	Guille Alles Library

The spring booster has been offered to those aged 75 and over and those who are classed as immunosuppressed. Everyone in these cohorts has been sent a letter inviting them to receive the booster. Anyone who believes they are in one of these groups, but who has not received an invite, is encouraged to email publichealth@gov.gg to discuss their circumstances.

The Committee *for* Health & Social Care and the vaccination team would like to thank the Committee *for* Education, Sport & Culture and Beau Sejour staff for their continued collaboration and support which has enabled the programme to meet its targets and ensure success.
