

## Media Release

embargo until time/date

**Date: 3 February 2023**

### **Covid-19 Vaccination Programme – update January 2023**

---

The Autumn COVID-19 booster programme closed at the end of 2022. We know there are a number of islanders who may still be seeking a first or subsequent booster. As such, a series of ‘mop up’ clinics will be scheduled between now and 12 February 2023.

Following the 12 February 2023, boosters will only be available for those aged 50 year or over or who are at clinical risk.

We will continue to provide an ‘evergreen’ offer of primary courses of vaccine for all those aged 12 and over for the time being. However, it should be noted that this will be reviewed in due course.

Clinics will be delivered by our Primary Care colleagues and have been confirmed as follows:

- Monday 6<sup>th</sup> February at the L’Aumone Surgery, Island Health.
- Thursday 9<sup>th</sup> February at the Rohais Surgery, Healthcare Group
- Friday 10<sup>th</sup> February at Queens Road Surgery, Queens Road Medical Practice

Anyone wishing to take up the offer of a vaccine appointment in one of these clinics should call 01481 220001.

Ends

### **Notes to Media**

---

The COVID-19 vaccination programme has delivered 179,342 doses of vaccine in total since it commenced in December 2020.
